SKILLS

• Languages

Java
Python
C programming
JavaScript
SQL

• Frameworks

React
Java Swing
JDBC

• Tools

VS Code
MySQL
GitHub
Canva

LANGUAGE

- English
- Hindi
- Marathi

PROFILE

IT engineering student with hands-on experience in HTML, CSS, JavaScript, and React. Built multiple frontend projects, including website clones and interactive tools. Familiar with Java, Python, MySQL (via JDBC), and basic WordPress usage. Focused on the practical implementation of web development concepts.

PROJECTS

Amazon Website Clone (HTML/CSS Only)

Designed and built the user interface of an Amazon-like homepage using HTML5 and CSS3. Focused on layout structuring, responsiveness,

Virtual Banking System (Java + JDBC)

Console-based banking application using Java and JDBC. Includes account creation, transaction handling, and balance updates with MySQL

Currency Converter (JavaScript + API)

Built using JavaScript and an exchange-rate API for real-time currency conversion with dropdown-based input.

SpeedoType Game (React Frontend)

Developed a typing speed test game using React.js with functional components, state handling, and timer logic. Gained hands-on experience in building interactive frontend apps.

Background Remover Tool (Python)

Python tool using OpenCV and PIL to remove and replace image backgrounds.

EDUCATION

Bachelor of Engineering (B.E.) in Information Technology

Vasantdada Patil Pratishthan's College of Engineering, Mumbai
2023 – 2027

CGPA: 8.91

Higher Secondary Certificate (HSC), Bifocal Science

S.V. Joshi Junior College, Mumbai
2021 – 2023

Percentage: 71%

Secondary School Certificate (SSC)

Swami Vivekanand Vidyamandir
2021

Percentage: 92%
